## PERKINS "ONOR-MAID" PRODUCTS

## Compact Face Powder

This handsome and dainty case is another new "ONOR-MAID" triumph in toilet artistry, and is meeting with great popularity.

The case is of beautiful bright burnished gold metal, containing a mirror, lamb's wool puff with chamois back, and a generous cake of finest grade compressed face powder. The modern woman carries her face powder in this case—in the form of a solid cake, which will not spill or sift out in the purse or on the clothing. A small quantity of powder is rubbed from the cake with the puff as needed, the same as rouge. It is handy and convenient, and takes up but a small space in the hand bag or purse. The case is only 2 inches in diameter and a little over  $\frac{1}{2}$  inches deep.

The powder as rubbed from the cake is smooth and soft as velvet, bearing the exquisite fragrance of many blossoms. It is of extraordinary fineness, adheres closely and does not give a "powdery" appearance. A cake of this powder lasts a long time, and when used up a new cake can be purchased and placed in the case. Comes in four shades of powder: Flesh, White, Brunette and High Brown.

## Hair Remover

Perkins Hair Remover, or Depilatory, quickly and effectually removes hair from any part of the body—is easily applied, and does not injure the most delicate skin. The hair disappears as if by magic a few minutes after being applied.

As an evidence of its superior quality, Perkins Hair Remover does not possess the disagreeable odor so common with this class of preparations, but instead gives forth a pleasant perfume. Continuous use of this preparation has a retarding effect upon hair growth. Shaving will only increase the hair growth.

This preparation is a positive necessity if one moves in present-day social circles.

A boon to those who are continually on their feet. Use Perkins Foot Powder and forget your foot agony. Put up in sifter-top cans.

## Onor-Maid Bath Salts

Medium sized crystals of the highest class and most expensive materials, nicely perfumed and colored. These Bath Salts are not the ordinary rock salt that most firms put out, for ours are an excellent water softener, whereas the rock salt crystals will tend to harden the water.
